NO. 124.

AFTERNOON DISPATCHES.

Guiteau Wants to Lecture and Travel for His Health.

Gardell knew Nothing of Shepherd—Opposition to the Hawaiian Treaty—Republians in Council.

Associated Press Dispatches.

WASHINGTON, April 26.—Guiteau is growing nervous again, and acts badly scared whenever mention is made of Court proceedings. He said to a reporter: "I suppose you know my case will be argued the 8th of next month. What do you think of my prospects? I don't want a commutation of sentence, but they do say all they must set me free, in order that I can travel and lecture. I do not want to be cooped up in prison all my days."

GARFIELD AND SHEPHERD.

Blaine was before the Committee this morning and had examined the diary of the late President, in which he had been in the habit for years of keeping a minute account of his daily transactions; and found neither Shepherd nor Hurlbut, the Cachet claims, nor the Peruvian Company mentioned; neither does his private secretary remember to have heard him mention them. None of these South American dispatches were prepared during the President's sickness. Blaine mentioned the fact that certain dispatches were blocked out before the President was shot, but which remained in *sacra quo* until after the succession of President Arthur.

DEBATE ON THE CHINESE BILL.

The debate on the Chinese bill was continued to-day by Slater, of Oregon, who sharply criticized Horwitz's speech, and contrasted the records of the Republican and Democratic parties upon the Chinese question to the advantage of the former.

He also spoke against the proposed omission of the fifteenth section from the bill.

Howe, of Connecticut, followed in opposition to the bill, attacking especially its provision against Chinese naturalization and sundry penal features of it, which he likened to the machinery of the fugitive slave law.

The Hawaiian Treaty.

Newspaper in the Hawaiian Islands is assuming such proportions in the markets of the country that a determined and united effort is to be made by the commercial bodies of this city to seek relief from Congress. It will be demanded that so much of the treaty between the Sandwich Islands and the United States as permits the entry of Hawaiian sugar free of duty shall be abrogated.

Matiethon and Wicker's sugar refining company, last week, received a consignment of two car-loads of Hawaiian sugar, transferred by steamer from San Francisco, where it had been received free of duty. A consignment of the same grade of sugars is now on the way here from San Francisco.

What Stults Had Done.

Greeley, Ohio, April 26.—Wm. Stults, recently discharged from the employment of Collins Summers, a prominent farmer near here, shot Mr. Summers six times with a revolver on Sunday evening, killing her instantly. The deed was done because Stult thought his victim caused his dismissal. This is the man who was cornered near Franklin, Pa., yesterday afternoon, and shot himself to escape lynching.

Railway Earnings in Missouri.

St. Louis, April 26.—The gross earnings of the railroads in this State this year, as reported to the Railway Commissioners, amounts to \$25,000,000.

A. U. S. Marshal Arrested.

Dallas, Texas, April 26.—A reported investigation by Government officials shows that United States Marshal Russell is behind in his accounts, and he has been arrested on orders from Washington.

Marquis Lorne and Princess Louise.

Ottawa, Ont., April 26.—The Civil Service bill now before the Dominion Parliament is passed, Marquis Lorne says he will visit the Pacific Provinces in company with the Princess Louise in September next.

COAST TELEGRAMS.

The Republican State Committee in Session.

San Francisco, April 26.—The Republican State Central Committee is in session to day to consider plans of the campaign. Nothing yet has been learned of the proceedings.

INDIAN DOINGS.

Four Indians were killed at a small mining camp about twenty miles south, known as Ayres', is surrounded by 150 hostiles, and that three men have been killed and one wounded. Horsemen have been sent to notify Captain Madden. Captain Tupper has two companies of sixty cavalry somewhere in the vicinity.

"Ah, dearest," sighed the young man, kneeling at the feet of his own self, "dost thou know what of all outward things is nearest my heart?" "Really, I can't say," she replied, "but if you have any regard for your health in this changeable weather, I should think it was a flannel shirt." She was too practical, and it broke the engagement.

A single mill in Sacramento ships a car-load of flour daily to Texas. Texas has formerly received its flour from Minnesota, but since the completion of the Southern Pacific railroad she is drawing upon the surplus flour of California, because of a better quality than the flour of the Northwestern States.—*Examiner*.

"Let us play we are married," said little Edith, "and I will bring my dolly and say, 'See, baby, pap'!" "Yes!" replied Johnny, "and I will say, 'Don't bother me now. I want to look through the paper!'" "Yes, dear," she had sufficient provocation, let him undertake to buy shoes for sixteen children.

ARIZONA INDIAN WAR.

It is useless to sentimentalize over the situation in Arizona. The Indian is there, and for the fourth time within twelve years is on the war path. The white man drove him from his hunting grounds and imprisoned him. He has broken from his keepers, and retaliates for the robbery and durance, upon the first pale face he meets. Already he counts four-score scalps as trophies of his unerring aim, and as sweet morsels of his revenge. Since his last raid he has recruited on rations furnished by the people, and at his leisure whetted his knife for his fleshly work. He has gathered his ammunition while his keepers have slumbered and slept, and are the brave, watchful guardians, and pets of the nation and of society, knew anything of his intentions, the Indian is far away, sweeping the country like a bosome of destruction, and is beyond the reach of his slow-moving pursuers. How long is this to continue? Is the pity that feels and arms a savage to continue to rule the War Department, or are we soon to grow sensible and make "good Indians" of them, thereby saving the lives and property of our people and restore peace to our neighboring, suffering Territories?

We repeat, there is no use in sentimentalizing over the Apache Indian. He or the white man must go to the wall, and the sooner we prepare to drive him there the sooner will the people of this country become humanitarians in fact. By right means or wrong means, our people are there, and now they must be protected. We cannot back down from the responsibility of the situation, but must go ahead, cost what it may.

The fact that these Indians have been permitted to gather ammunition and arms while under the charge of the military, and to get so far away on their murderous raid before pursuit was commenced, proof that our military affairs are badly managed in the details, and poorly prepared. The blood of the slaughtered appeals to the nation for better discipline and better courage than that now prevailing in the Army of Arizona.

The Central Committee now in session at San Francisco has fixed upon Wednesday, August 30th, as the time for holding the Republican State Convention, and Sacramento as the place. The apportionment of delegates was made, Los Angeles county being accorded sixteen. Unanimity and good feeling prevailed, and a vigorous campaign is outlined.

Prominent members of the Canadian House of Commons, in debate, have favored the independence of Canada by severing itself from the mother country.

A petition signed by three hundred influential citizens has been sent to Messrs. Moody and Sankey, asking them to spend a year in London in evangelical work.

SANTA MONICA.

Crop Prospects Not Flattering—The Towns.

At Santa Monica and vicinity the crop prospect is anything but flattering. All the grain, both barley and wheat, is looking as though a fire had been over it. Fruit of all kinds is looking well.

The town is lively, there being a great many visitors here at present.

Houses that have been closed for a long time are now being filled up, and several new houses are being built.

It is a good demand for furnished rooms for the summer. The large bath house on the beach is a great draw for surf bathing.

Both wharfs are crowded with parties of all ages and sexes fishing, and they find rare sport and plenty of fish.

There is but one hotel in operation—the Central. There are also four restaurants, and all seemingly well patronized. Looking around a little further, you find the few run-down houses are not doing much. They have to patronize one another to keep running; still all persist in defying law and order.

Musical Math Charms Etc.

Such can truly be remarked of the musical instruments sold by Prof. C. E. Day, for they cannot be surpassed for sound and purity of tone anywhere.

His stock is well and varied, ranging from a keyboard to the square grand piano, and his prices are moderate.

Those contemplating the purchase of a piano or organ should not fail to visit this model music house before purchasing elsewhere. Read announcement in another column.
